

Ferretto Group- Leader in Integrated Logistics

Founded in Vicenza in 1956, Ferretto Group SpA is one of the leaders in integrated logistics at the Italian and European level. Thanks to its sixty years of history and continuous investment in innovation and research, the company produces a full range of state-of-the-art solutions for all storage and archiving needs. Through its production, specialization, and expertise in its business divisions, the Ferretto Group operates on the market providing integrated solutions for metal shelving, industrial mezzanines, automatic storage and retrieval systems and vertical, rotating, and mobile storage systems. The Vicenza Group offers its partners integrated and high-tech solutions with the added value of internally developed logistics software to support the customer at all stages, from design to installation, through service and maintenance, across the lifespan of the systems.

Over time, the Ferretto Group has strengthened its international presence by means of its own companies and production units in India (Armes Maini), China (Ferretto Storage Systems Beijing) and Bosnia (Ferretto Group Central Europe). In 2015, the Group potentiated its presence in Asia by way of an agreement with Dong Fang Precision Science Co. Ltd, a heavyweight in China. The innovation of the integrated solutions offered and the quality of the service offered have made the Ferretto Group the solution of choice for many leading companies in Europe, the Middle East, Africa and the Americas.

In 2012 the various companies merged into one with the establishment of the Ferretto Group which is currently lead by the managing director Riccardo Ferretto and the general manager Miguel Fabra, together with the president and founder, *Commendatore* Gian Carlo Ferretto.

Quality as a choice

At the forefront of quality. Ferretto Group Spa is one of the few companies in Italy to manufacture products in compliance with the CISI [Costruttori Italiani di Scaffalatura Industriale] procedures of the Association of Italian Steel Constructors, which are more stringent than the European industry reference FEM standards. This is a choice focused on quality also reinforced by the certifications pursuant to EN ISO 3834-2 regarding welding, EN 1090 regarding the construction of steel structural components, and EN ISO 9001 regarding the entire quality system together with EN ISO 14001 regarding the environmental

Sixty years of history

- 1956 - Establishment of Armes
- 1960 - New plant and headquarters in Ponte Alto
- 1971 - Acquisition of the plant in Costabissara
- 1982 - Establishment of the MAGA Division
- 1986 - Establishment of Promag (production of warehouse automation systems)
- 1995 - Armes acquires Promag
- 2002 - Establishment of the Ferretto Group and Archimede Ingegneria
- 2007 - Establishment of Armes Maini in India
- 2008 - Bertello joins the Group. Establishment of Egeria and Euclide
- 2010 - Establishment of Ferretto Storage Systems Beijing (China)
- 2012 - Establishment of Ferretto Group Spa
- 2014 - Acquisition of MCE (Metal Construction Engineering) in Bosnia
- 2015 - The agreement with Dong Fang strengthens the Group's presence in China
- 2016 - The Ferretto Group celebrates 60 years of business

The Ferretto Group figures

- 40,000 sqm. - Plant surface destined for production globally
- €73,000,000 - 2016 Turnover
- €80,000,000 - 2016 Turnover including foreign subsidiaries
- 220 - Workforce in Italy
- 360 - Group's workforce
- 21,000 - Tonnes of shelves produced per year
- 150,000 - Shelving installations
- 1,600 - Vertical, rotating and mobile storage warehouses

Ferretto Group integrated solutions

All logistics needs are met with customized solutions including development, design, and construction carried out by the Ferretto Group for its customers.

Metal racking units and mezzanines

ASSOCIATA

ASSOCIAZIONE ITALIANA SISTEMI DI SOLLEVAMENTO, ELEVAZIONE E MOVIMENTAZIONE

FEDERATA

FEDERAZIONE DELLE ASSOCIAZIONI NAZIONALI DELL'INDUSTRIA MECCANICA VARIA ED AFFINE

Self-supporting mezzanines, racking for automated storage systems for pallets and boxes, pallet racks, mezzanines, clip and cantilever shelving for archives and warehouses.

Automated storage systems

Automated storage and retrieval system for automated storage systems, inbound-outbound lines for automated storage systems, shuttles and satellites.

Vertical, rotating and mobile racking systems

Indoor/outdoor vertical, rotating, mobile storage systems, and shelves for sheet metal.

Logistics software

Remote monitoring and support services for storage systems, management software for automated, vertical and rotating, or static storage systems, management software for ground level and shipping activities, radio frequency and voice picking, connections with corporate hosts.

Services

Installation, maintenance and post-sales services, design of regular and shallow foundations, structural and architectural design of civil works, project and safety management in the work site, design and implementation of fire-fighting systems, design and supply of technological equipment and photovoltaic panels, design of machines and equipment, development of three-dimensional models, creation of 3D models for virtual simulations.
